

Night Hearts  
*and*  
Music Lovers

Night Hearts  
Burn themselves  
With their own heat.

No room for ego  
No place for inhibitions  
Pure passion burns clean.

Thrown into the music  
Reckless abandon  
Feeds the flames.

Letting go of some things  
Grabbing on to others  
A push and pull that amplifies

The Sound,  
The Energy,  
The Awareness.

Realizing the need  
To take it in  
Then push it back out.

Feeding off each other  
A positive feedback loop  
Contrasts and compliments.

Rhythm and tone  
Squeal and moan,  
A language of emotion.

The Night Hearts speak it  
The Night Hearts seek it  
Because they are...

...the Music Lovers.
